OS/2 Warp 4

The easiest way to a connected world.

- Sets you up with the fastest, easiest route to the Internet
- Runs OS/2, DOS and most Windows 3.X applications and Java applets and applications
- Integrates true multitasking and multithreading to help you work smarter, not harder
- Allows you to launch frequently used applications with a single mouse click
- Comes with OS/2 Crash Protection to safeguard your business-critical applications

If you are not currently working with a Business Partner and would like to place a Volume Purchase Option order, call 1-888-ShopIBM between the hours of 8AM-6PM Eastern and select the software option. Or, use the Call Me Button and an IBM Representative will call you back.
